British Columbia Operators Ask Impartial Vote on Their Latest Offer

Lumbermen Challenge Union to Hold Referendum

Ordered by Truman

Government Seizes American Railways

WASHINGTON, May 17.—(AP)—President Truman signed an executive order today taking over the railroads in an effort to prevent a strike set for tomorrow.

Earlier, union leaders had said they would not ask their men to stay on the job if the government did seize the roads.

ASKED WHETHER the strike would be as such, President A. F. Whitney of the Trainmen's Brotherhood told reporters:

"Yes, sir."

President Truman in a statement, called upon the railroad workers to co-operate and remain on the job.

President Secretary Charles G. Ross said that the Office of Defence Transportation would operate the carriers.

"In the strike situation thus confronting us governmental seizure is

Foreign Ministers' Parley Breaks Up

By FLORA LEWIS

PARIS, May 17.—(AP)—The deadlocked Big Four foreign ministers prepared today for a month's recess, with British and American delegates expressing confidence that their differences with Russia would be bridged when the conference reconvenes June 15.

BEFORE DEPARTING State Secretary Byrnes and Foreign Secretary Bevin expressed conviction that, despite the failure to draft any major treaties at the current conference, greater progress would be made at the next meeting.

American sources said Mr. Byrnes' visit was based on progress made on such questions as Italian reparations, colonies and Balkan frontiers.

They said these advances should assure the calling of a 21-day peace conference, even if the next meeting of foreign ministers should adjourn without final agreement on peace treaties.

American officials said the city of Trieste, key to the Italian peace treaty, had become a symbol of

Britain, U.S. Reach Agreement on Food

WASHINGTON, May 17.—(AP)—Herbert Morrison, Lord President of the Council of the British cabinet, announced today an Anglo-American agreement has been reached with reference to the world food crisis.

A joint communique, giving details, is expected later in the day.

MR. MORRISON came here to consult President Truman and other American officials on famine conditions and remedies. Following a call on Mr. Truman this morning, the British official said his mission had ended.

Mr. Truman, he told reporters, has been "most helpful."

Ottawa, May 17.—(CP)—Herbert Morrison, Lord President of the Council of the British cabinet, has completed food talks in Washington and will come to Ottawa tomorrow by air. It is learned today that his mission has ended.

It is expected he will discuss the food situation with Agriculture Minister Gardiner and other government officials.

Military Ribbons Worn Unlawfully

Jailed for Decorations

William C. Abbott was sentenced to serve a total of five months' imprisonment when he pleaded guilty in city court Friday to wearing military decorations to which he was not entitled and to unlawfully wearing an army uniform.

THE ACCUSED was apprehended in Edmonton last April 17 by members of the Army Provost Corp. at which time he was wearing a battle dress in Eighth Army patch, flashes of the first LAA, RCA, and the Lanark and Renfrew Scottish Regt., Canada, a First Canadian Corp patch, corporal chevrons, four red service chevrons, one fiver chevron, the 1939-45 star, the Italy star and the France-Germany star.

Court was told that he had no right to wear any of the above, but was entitled to the Defence Medal and the CISM and clasp, which he was also wearing.

ABBOTT, WHO WAS SENTENCED to six months' imprisonment in Calgary last March on charges of false pretences, took ill while serving the prison term and was moved to the C. H. Heister hospital in Calgary. He escaped from there shortly before being apprehended here.

He joined the Canadian Army in March, 1941, and went overseas shortly after, but was returned to Canada in December of the same year and discharged the following month on medical grounds.

Abbott was sentenced to three months' imprisonment for unlawfully wearing military ribbons and to two months for wearing an army uniform. The sentences were ordered to run consecutively, but to be concurrent with the term in Calgary.

VANCOUVER, May 17.—

(CP)—As the strike of 37,000 loggers and mill workers in British Columbia went into its third day, the operators challenged the union to hold an impartial referendum among employees on the management's latest offer.

R. V. STUART, operators' representative, issued a prepared statement contending that by the union's own figures only 12,700 of the 37,000 workers voted for the walkout and this vote was taken 14 weeks ago.

Meanwhile a spokesman for the International Woodworkers of America (CIO-CIO) said there were no new developments to report on the work stoppage called by the union in protest against failure to obtain a satisfactory working agreement.

The Stuart statement, declaring employees have had no chance to express an opinion on the operators' offer of a \$1 a day pay boost, said Provincial Labor Minister Pearson had been asked to conduct

For India Union Expect Moslems To Oppose Plan

By PRESTON GROVER

NEW DELHI, May 17.—(AP)—The Congress party working committee expected today to consider a British cabinet delegation's proposal for an independent federated union of India's provinces and states amid indications of strong Moslem opposition to the plan.

MOHAMMAD JAWAHIRLAL NEHRU, leader of the Congress party, was expected to outline a broad outline of the plan to a broad-based central government as suggested by the cabinet mission, which proposed that a constitutional convention of 35 delegates be assembled as soon as possible to work out details of an eventual federation.

Comments in Moslem quarters indicated the plan would not find widespread acceptance among Moslems, but the official reaction of the Moslem League, which came from its president, Mahomed Ali Jinnah, who previously threatened to lead a "Pakistan" movement, was not reported.

THE CABINET GROUP'S plan appeared to outline a broad-based central government as suggested by the cabinet mission, which proposed that a constitutional convention of 35 delegates be assembled as soon as possible to work out details of an eventual federation.

Comments in Moslem quarters indicated the plan would not find widespread acceptance among Moslems, but the official reaction of the Moslem League, which came from its president, Mahomed Ali Jinnah, who previously threatened to lead a "Pakistan" movement, was not reported.

"It'd Get Ulcers Around Here," Says Prospector of New York

NEW YORK, May 17.—(AP) Spud Arsenault studied the loose pocket change in his palm today and decided he'd rather garner his gold in the great outdoors of the Yellowknife country.

THE CANADIAN MINING prospector, arriving in the wake of reports he'd sold a strike in Northwest Territory for \$100,000 cash, took a crisp, new \$50 bill Wednesday night and went night clubbing.

"I'd like to take them all to Ulcers, that's what I'd get," Spud-47 and single-awatched the conversation.

"THE GIRL I'M GOING to marry must be too big and hefty—and must be a genuine home-maker."

"Now those young ladies I saw in the chorus last night at that club. I feel awful sorry for them. How do they live and manage to look so pretty—in that air?"

Spud-47 said he left his hundred grand in Toronto, allowed he'd drop over to Jersey City to see a sister, Mrs. H. Palace, and get on back to Yellowknife.

Mrs. Palace, in an interview at her home, said she "hadn't been picked out" to be Arsenault's wife.

"He should do what he said he would," Mrs. Palace said. "I should have said so to Edmonton," Mrs. Palace said.

Handed a newspaper story which told of Arsenault's visit to the night clubs and his posing for pictures with chorus girls, Mrs. Palace said: "Heaven's, I don't see and marry any of them."

YELLOWKNIFE PAYS OFF: "Spud" Arsenault is pictured in a background of the \$50 bills in which he received the \$100,000 in cash for his find north of Yellowknife when he disposed of his claim to the Beaulieu-Yellowknife Company. At his special request he was paid in bills of the denomination shown, since he said that he wished to see how high a pile of money would be formed. Above—he is seen in the midst of it.

ARSENULT was nicknamed Spud, she said, because he was born in Wellington, P.E.I., a province famous for its potatoes. He handed a newspaper story which

told of Arsenault's visit to the night clubs and his posing for pictures with chorus girls, Mrs. Palace said: "Heaven's, I don't see and marry any of them."

Federal Government Is Removing Subsidy

Edmonton milk consumers will be required to pay 12 cents a quart for milk after June 1. Heretofore the price has been 10 cents. This is the result of the policy announced by Hon. James G. Gardiner, minister of agriculture, in the House of Commons on Thursday night that the government was discontinuing the payment of the consumers' subsidy of 2 cents a quart on June 1. Mr. Gardiner said that the control of milk prices would be returned to provincial milk boards across the country.

THE BOOST in price will be felt at every point in Alberta where the consumers' subsidy is being paid. The cities of Edmonton, Calgary and Lethbridge will again be paying 12 cents a quart the same as in 1941 under the price set by the provincial milk board, a branch of the Board of Public Utility Commissioners.

In other smaller cities and towns in the province the milk board had set the ceiling price at 11 cents a quart, but since December 1945 when the subsidy was instituted consumers were called upon to pay nine cents a quart. In such cases as set by the provincial milk board, the amount of subsidy.

MILK DEALERS do not benefit from the increase in price, it is said.

U.S. Resolution Delay Admitting Albania to UN

By FRANCIS W. CARPENTER

NEW YORK, May 17.—(AP)—The United Nations Security Council today adopted unanimously a resolution which would delay admission to the United Nations.

THE COUNCIL then adjourned subject to the call of the chairman.

THE RESOLUTION offered May 10 by Edward R. Stettinius Jr., United States delegate, provided that all applications for United Nations membership submitted not later than July 1 should be considered by the council in August.

Albania's application is the only one on file.

ANDRI A. GROMYKO, Soviet delegate, called the Stettinius proposal "a delaying tactic" and urged its rejection.

Nazi Officers Charge Spain
Actively Aided Hitler's War

By REMBERT JAMES

MOSCOW, May 17.—(AP)—The government newspaper Izvestia today devoted two pages to a 10,000-word statement, attributing to two German officers who served in Spanish cities as military attaches, which charged that the Franco regime, "under a mask of neutrality, actually participated in the war on the side of Germany."

TO VISIT CITY.—Stanley V. Allen who will be a visitor in Edmonton on June 5. For the last four years Mr. Allen has been commercial secretary at the Canadian embassy in Washington. He has been appointed Canadian Government Trade Commissioner at Cape Town, South Africa, and is making a brief tour of Canada before taking up his new duties.

Here's Box Score
Big 4 Meeting

PARIS, May 17.—(AP)—Foreign ministers' box score:

AGREEMENTS

Protocol to revise armistice terms with Italy. Italy liable for reparations. Transylvania awarded to Romania. Virtual accord on peace treaty with Finland. South Tyrol remains part of Italy. Approval given four-power commission to study German disarmament in all occupation zones.

DISAGREEMENTS

Italian-Yugoslavia frontier and disposal of Trieste. Whether to make a complete study of Germany. Twenty-five-year treaty to supervise German disarmament. Disposition of Italian colonies. Disposition of Italian navy. Evacuation of Allied troops from Italy and Balkans. Internationalization of Danube. Whether to hold a 21-nation peace conference. Whether to discuss Austrian problems at next Big Four ministers' conference.

The average human brain is three times the size of an average gorilla's.

LOGGERS' STRIKE HAS WIDE EFFECTS.—Strike of 37,000 British Columbia logging and sawmill workers went into effect Wednesday and already is beginning to be felt in other industries. As far as the eye can see along this river is a veritable sea of logs, ready for the ride down stream to the mills. As well as the lumbermen, the strike may affect 50,000 workers in other industries. The strike follows breakdown of wage-hour negotiations between the International Woodworkers of America and B.C. lumber operators.

To Help Ease Food Crisis

Some of Displaced Persons
May Come to the Dominion

By ROBERT W. KEYSERLINGK

Exclusive to The Edmonton Bulletin

LONDON, May 17.—(BUP)—British Empire problems were thrust to the fore today as the four-power foreign ministers headed for home after drinking champagne in Luxembourg Palace in Paris to hide behind a social smile the bitter fact that no agreement on fundamental points was possible.

ATTEMPTS ARE BEING made among members of the delegations to Paris to exaggerate the importance of minor points which were solved, but official quarters in London are not even making a pretense to gloss over privately that the main achievement has been that the general line against Soviet Russian expansion has been held at Trieste and Tripoli.

There seem to be no illusions, however, that basic pressure will be maintained and probably even increased during the next few months along the line from Iran to the Adriatic.

NEWSPAPERS TODAY headline the proposal to give to the world also much space to Egypt and discussion of the food situation which became an important part of the attempt to checkmate the Russian's postwar "general winter" namely the European political brother "general hunger."

The British government is most anxious to clear up the difficulties with India, Egypt and the Arab world, while at the same time believing that the nutrition problem is directly connected with efforts to prevent the radicalizing of the hungry populations of Europe.

IT IS IN THE latter effort that Canada is especially mentioned. A high official told the British press that the greatest contribution to the amelioration of the grim situation will be in the realm of food which today speaks more loudly than ideologies.

Thus while the British colonial empire problems can be described as in the realm of ideology, in the sense of political aspirations of certain peoples, the battle of food might be decisive in Europe. The food problem is most closely linked with the question of almost 1,000,000 displaced persons whose life is now being discussed in London.

HOWEVER, The thorniest problem here is not the "D.P." camp inmates who are mainly in Germany but many who are elsewhere, but about 200,000 original Allied fighters of the Polish army, some 100,000 of them are on active duty in Italy, and the balance in Britain, and the feeding, clothing and maintaining of them as part of the British army presents a double problem.

First, their presence in Europe is considered a continuing diplomatic liability since at every meeting Soviet delegates bring up the question.

Second, it is a straight problem of materials in the British economy which still is facing the gravest food shortage.

WHILE OUT OF THE total about 7,000 have agreed to follow British Foreign Secretary Ernest Bevin's appeal to return to their homeland, the fact that the Soviet controlled radio from Warsaw denied Bevin's pledge of immunity on their return has cut down the actual repatriates to about 2,500.

It is believed the question of the donations, especially big food producers like Canada, sharing the burden with Britain will be brought up. Some scheme to evacuate them under the status of temporary sanctuary similar to that when Canada and other countries granted such status to a large number of Jews and other refugees from totalitarianism, might become an urgent issue.

IT WAS POINTED out here that an offer from Canada to undertake at least partial responsibility for these men, many of whom fought shoulder to shoulder beside Canadians in Italy, in the skies over Britain and elsewhere, should be one of the greatest contributions, by easing the difficult food situation and also reducing the counter

Britain Protesting
Polish Food Claim

By EDWARD V. ROBERTS

Exclusive to The Edmonton Bulletin

LONDON, May 17.—(BUP)—The British government announced today that it had protested formally to Poland against a speech by Vice Premier Wladislaw Gomułka in which he charged that UNRRA food was being used in Europe to further political ends.

A foreign office spokesman disclosed that the British protest was handed to the Polish foreign secretary in Warsaw last week.

THE BRITISH note charged that Gomułka's remarks were "peculiarly inappropriate and offensive."

The speech was made April 30. Gomułka was quoted as charging that UNRRA foodstuff was used to influence the elections in Greece and Italy while the UNRRA was "hostile to Polish democracy."

Poland actually is third among European countries receiving UNRRA supplies, the spokesman said, and 17,000 of 200,000 tons recently diverted from Britain went directly to Gdynia, the Polish port.

"OUR NOTE states that if British efforts on behalf of Poland are to be met this way, His Majesty's government will know in the future that their aid should be reserved for those who know how to appreciate it," the spokesman said.

Magnesium Plant
Sold by Ottawa

OTTAWA, May 17.—(CP)—The Dominion magnesium plant at Hales Corners, Ont., built by the government at a cost of \$3,464,102 was sold to the Dominion Magnesium Co., Ltd., for \$1,400,000, it was reported in a reply today to the Commons for G. H. Castleden (CCF-Yorkton). The reply said there was no assurance of a peaceful market for the product and a capital outlay of \$500,000 was required for modification and improvements in the plant.

It is pointed out that with Europe with its shattered transportation still maintaining large camps feeding roughly 800,000 displaced persons, plus aiding with food some 100,000 others, the Poles might be transported to the food sources if necessary and kept in camps there instead of the present cumbersome method of bringing the food to them.

One hears these arguments from many sources, under the appeal to duty especially of the richer countries to share the problem as a moral obligation and as a practical solution.

Canada's role as a country has assumed many new international functions. The breakdown of the Paris conference has pinpointed the urgency of putting the Western House in order and the displaced persons especially the Polish soldiers, are believed a major influence in the trends of dangerous disillusionment because of the disparity between charity as preached and charity as practised.

CANADA MIGHT shortly be asked to assume new responsibilities consequent upon her entry into the difficult food situation arena as an important nation.

Asks Compromise
Canada Day Bill

OTTAWA, May 17.—(CP)—Senator G. G. McGeer (L-British Columbia) yesterday urged in the senate that representatives of the senate and the commons get together over the week-end and try to work out a compromise on the Canada Day bill.

THE NAME "Dominion Day," which the bill would change to "Canada Day," runs through 3 number of federal statutes including the Bills of Exchange Act, the Civil Service Act, the Interpretation Act, and Senator McGeer said he did not know how many other statutes. It also ran through provincial laws and municipal, ordinances and doubtless any number of private contracts.

The senator wondered if the commons appreciated how many amendments were involved in passing this bill which only provided

for the amendment of a statute passed in 1927.

"I do not want to be involved in adding more confusion than already exists in our appalling legal position by passing this bill," he said.

GENERALLY FAVORING the principle of the bill, Senator McGeer said the senate should be careful to do nothing that would cause disharmony between the English and French races in this country and should seek something satisfactory to both.

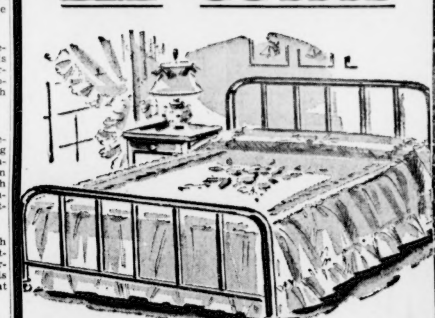

This bill was supported by Vincent Dupuis (L-Quebec) who thought it should go farther and take the name Dominion out of the Statute of Westminster and any other statute that called Canada a dominion.

LIVESTOCK'S "BEST BABIES" GREET SPRING IN 1,000-ACRE NURSERY

Spring has come again for the 60th time to the 1,000-acre Central Experimental Farm just outside Ottawa which is the nerve centre of the Dominion Government's nation-wide experimental farms system. Here are carried on breeding of choice livestock and agricultural research of unsurpassed importance to the Canadian farmer. At left, a month-

This day-old calf, still wobbly at the knees, welcomes the support of a farm hand, while anxious mother doesn't quite know what to make of it all.

These eight little pigs aren't yet ready to go to market. Their mother is a 300-pound Yorkshire, a breed famous for its bacon, so they'll be welcomed warmly at market.

One of the Best in Dominion

Experimental Farm Plans Big 60th - Year Program

By GERALD HAWKINS

OTTAWA, May 17.—If any Ottawa youngsters, like some children in big cities, have never been on a farm, it isn't because there's no farm near enough for them to visit. Right at their back door is one of the best in the country, the Central Experimental Farm.

THIS INSTITUTION, now 60 years old, is the nerve centre of the Dominion Government's huge experimental farms system, which spreads all over the country. The work it does in agricultural research is of unsurpassed importance to the Canadian farmer, whether he be a wheat grower of the West, an apple man in the Okanagan Valley, a potato planter in New Brunswick or a mixed farmer in Ontario.

Right now spring has come, for the 60th time, to the big Central Farm. It is evident in the greenness of the pastures, the increased work for the farm staff as plowing and seeding get under way, and—perhaps here most of all—in the barns, where the animal population has been increasing greatly in recent weeks.

HORSES, CATTLE, sheep, swine, chickens, geese and ducks are bred and raised on the 1,000-acre farm just outside Ottawa's city limits, but not primarily for their ability to perform work, or for their meat or their wool or their eggs or their milk. Rather, they are bred to provide Canadian farmers with better, harder, healthier, more economical, more productive livestock.

It's the same with everything grown on the more than 30 stations

Hudson Bay Line Deficit Goes Up

OTTAWA, May 17.—(CP)—The Hudson Bay Railway showed a deficit of \$409,604 for the year 1945-46, compared with a loss of \$64,940 the previous year, Transport Minister Chevrier reported yesterday to the common railway committee.

The committee completed its examination of affairs of the Canadian National Railways and the Canadian National (West Indies) Steamships Ltd., and adjourned until May 28 when it will start a study of Trans-Canada Air Lines.

Operating revenues for the Hudson Bay Railway were reported for 1945-46 at \$245,287, a reduction of \$942 from the previous year. Operating expenses at \$651,400 were down \$30,748.

Slash Germans' Ration of Bread

STUTTGART, Germany, May 17.—(AP)—The German zonal government yesterday ordered a one-third slash in bread rations for 18,000,000 Germans in the United States occupation zone, coincident with a warning that 9,000,000 Germans in the British zone faced possible starvation rations of only 300 calories daily.

The German council of minister presidents, just given new authority to make independent decisions, announced the food ration in the American zone would be cut seven per cent from 1,275 to 1,190 calories daily effective May 27. The ration cut will be made entirely in bread, with the present weekly allowance of 33 pounds reduced to 22 pounds.

THE AVERAGE Canadian and American diet ranges from 2,400 to 3,000 calories daily.

Military experts said the new ration for a full day would provide three slices of bread, a medium wine-glass of skimmed milk, four medium potatoes, a medium slice of sausage and three-fourths of a cup of cream coffee.

The council approved a slight upward adjustment of fat and cheese portions, but this did not compensate for the slash in bread.

Ontario Woman Dies of Anthrax

HAMILTON, May 17.—(CP)—Dr. J. E. Davy, medical officer of health, yesterday said his department was seeking all possible sources of the anthrax infection which caused the death of a Hamilton woman. He said he believed the woman's death Wednesday was the result of Hamilton's first case of anthrax in humans. The disease previously had been found at times among cattle in nearby rural areas.

Claxton Named

OTTAWA, May 17.—(CP)—Health Minister Claxton has been named Canadian member of the Economic and Social Council of the United Nations, which will hold its second session in New York on May 25, Justice Minister St. Laurent, acting minister of external affairs, announced yesterday.

Dr. Nunn Sentence Won't be Reviewed

LONDON, May 17.—(CP)—Home Secretary J. Chuter Ede told the House of Commons yesterday he was unable to find any grounds for reviewing the 10-year sentence imposed May 1 on Dr. Alan Nunn May for disclosing atomic secrets to agents of a foreign power. The question was raised by W. J. Brown, Independent member for Rugby, who said "it is perfectly obvious May is not a common criminal and not a traitor in the ordinary sense of the word." Mr. Brown said May "has suffered a much heavier sentence than has been applied to

28 Are Wounded In Naples Riot

ROME, May 17.—(Reuters)—A report from Naples yesterday said 28 people were wounded there Wednesday night when a crowd of monarchist sympathizers trying to storm the Communist headquarters were met with hand grenades. The battle went on for some hours as monarchist reinforcements joined in.

Many who sold this country for money," and added that "the whole issue of atomic bomb secrecy constitutes an extremely doubtful ethical area."

Was Famed "Monsieur X"

French Underground Leader Now Head of Security Body

By FRANCIS W. CARPENTER

NEW YORK, May 17.—(AP)—"Monsieur X," late of the French underground, will become "Monsieur Le Président" of the United Nations Security Council today.

HE IS Alexander Parodi, 44-year-old Parisian.

He took his seat at the Crescent-shaped council table yesterday for the first time as France's permanent delegate, replacing Henri Bonnet, French ambassador to United States, who served temporarily.

It is a council rule that each delegate shall serve one month as chairman in the English alphabetical order of the countries on the council. Mexico will take over June 17.

M. Parodi attained fame among the French as one of the top resistance leaders.

In 1944, he was named Gen. de Gaulle's representative of the government inside France. He heard the French radio in Algiers announce the appointment of "M. X" and a few days later word arrived through the underground that "M. X" was Parodi.

KNOWN AS "KARTUS" and "Cera" in those days, M. Parodi raised more than \$50,000 monthly for the underground, particularly for his newspapers.

During the hectic days of Paris liberation, he cycled from ministry to ministry, to and from police headquarters, directing the battle against the Germans whom he had good reason to hate.

They had tortured and killed his brother, Rene.

On Paris' liberation day, August 25, 1944, M. Parodi and Gen. de Gaulle met for the first time. Gen. de Gaulle named him labor minister and last December appointed him ambassador to Rome, where he stayed until two weeks ago.

HE BROUGHT his sister, Jacqueline, here as his secretary. He is

FOREIGN TRADER.—Hollywood's blond Helen Chapman smilingly salutes after being named an honorary skipper in the U.S. Merchant Marine. During Foreign Trade Week, in Los Angeles, she will preside over celebration of America's world-wide seaborne commerce.

married and is the father of two sons, one nine years old and one born 15 days after Paris' liberation.

M. Parodi, who studied law, is no professional politician, but has social leanings.

Parodi also will be France's head representative to the United States atomic bomb experiments in the Pacific this summer.

Govt. to Consider Rights Declaration

OTTAWA, May 17.—(CP)—Veterans Minister Mackenzie yesterday assured the commons the government would "definitely" consider opposition proposals that a committee be established, possibly at the next session of parliament, to draw a declaration of rights and privileges of Canadian citizenship.

Mr. Mackenzie, acting house leader, gave the assurance during debate on third reading of the government's citizenship bill, approved in committee of the whole Tuesday and given final reading late today after two hours of discussion. It now goes to the senate.

THE MINISTER was replying to M. J. Coldwell, CCF leader, who said his party was "most anxious" that the bill not pass without some understanding being reached on the "Bill of Rights" question.

Earlier, Speaker Gaspard Fautoux ruled out of order an amendment by John Diefenbaker (PC—Lake Centre) aimed at having included in the measure a bill of rights or at least definite commitment that a bill of rights would be drafted in the near future.

Contested by the Progressive Conservative opposition, Speaker Fautoux's ruling was upheld by a vote of 125-38.

Life Imprisonment For Club Slayings

WHITE CLOUD, Mich., May 17.—(AP)—Charles Gilbert, who confessed he bludgeoned his wife and four-year-old step-daughter to death April 19, was sentenced yesterday to life imprisonment on each of two first degree murder charges. Judge Earl C. Pugsley imposed the sentences on the 35-year-old Muskegon foundry worker after hearing him tell of beating his wife, Gladys, 26, and step-child Karen Greenwald with an auto crank and burying their bodies in a shallow, sandy grave.

Why a STILL GREATER SHARE OF THE INCOME TAX may fall on INDIVIDUALS

There is a very grave danger that a higher percentage of the country's revenue than at present may have to come in the future from your personal income tax.

Tax-free co-operatives, crown companies, government and municipally owned corporations are rapidly expanding in numbers and scope. Because of the fact that they escape paying income tax, the government is already losing 125 millions of dollars of potential revenue annually (Estimate of Professor J. L. McDougall presented to a special committee of the Senate).

That means that all individual tax payers in Canada pay an extra \$50.00 each, on the average, in income tax, so that these corporations may be tax-free.

4500 tax-free co-operatives

Some 4500 co-operatives in this country have been escaping income tax because they claimed that co-operatives make no profits.

A Royal Commission on Co-operatives has declared that co-operatives do make profits, and has recommended that their profits be taxed. But it has also recommended that profits paid out to customers in the form of "patronage dividends" should be treated as an expense in computing taxable income.

If this latter recommendation of the Royal Commission becomes law, co-operatives and other businesses will

be at liberty to pay out all their earnings as patronage dividends, leaving nothing to tax. Co-operatives and privately owned businesses would be entirely free to decide whether or not they chose to pay income tax.

All profits must be taxed equally

If this country is going to have an income tax law, then all profits must be taxed, and taxed fairly. We do not object to the payment of "patronage dividends" out of profits after income tax has been paid. But we do object to the recommendation that patronage dividends be classed as an ordinary expense of doing business. "Patronage dividends" must be placed in the same category as the dividends from any privately owned business.

Revision of The Income War Tax Act, insofar as it concerns Co-operatives, will come before the current Session of Parliament. It is of utmost importance that such revisions shall bring tax equality to all groups.

We urge that the income tax payers of Canada insist that their elected representatives in the House of Commons see that the heavy burden of income tax is shared fairly by all.

The Income Tax Payers Association has no objection to the principles of co-operative trading. It should be the right of every Canadian to trade as he desires. Our objective is to ensure that no section of business unloads its share of income taxation and cost of the war on other business or on individual income tax payers.

JOIN THE I. T. P. A.

All income tax payers (except employees of income tax exempt concerns) are eligible for membership in the Income Tax Payers Association. If you wish to become a member, sign and mail the attached application form and enclose membership fee of \$1.00. Mail either to Winnipeg, or Toronto.

Income Tax Payers Association, Toronto or Winnipeg.

I hereby make application for membership in the Income Tax Payers Association and enclose herewith membership fee of \$1.00.

WRITE OTTAWA

You can assist in correcting this unfair tax situation by writing immediately to the Government urging equitable application of Income Taxation to all forms of business.

Fill out and mail the attached form. No postage is required.

Hon. J. L. Hiler, Minister of Finance, Ottawa, Canada.

I respectfully urge:

1. That the Government apply income taxation on exactly the same basis on all forms of commercial, industrial, municipal and governmental enterprises and mutual concerns.

2. That patronage dividends and like payments, be disallowed as an expense before arriving at taxable income.

Last Minute Rush for Pelts On As Muskrat Season Nears End

Exclusive to The Edmonton Bulletin
AKLAVIK, N.W.T., May 17.—With the muskrat season here expected to come to a sudden end on or about June 15, this northern point's four trading posts, its trappers, hunters and even the wives of all concerned are in the midst of a feverish last-minute rush to obtain as many more of the valuable skins as possible.

AN ESTIMATED 65,000 trapped muskrats at the ungraded price of \$2.50 per skin have been purchased at Aklavik this year. Competition is keener than ever and the trading posts, Hudson's Bay Company, S. M. Peffer Ltd., Jack Douglas and the firm of A. Pines and Sons of New York are vying with each other to get the lion's share of the season's take.

During the Easter "holidays", when crowds of hunters with their wives and children were in the settlement, traders gave free food and as much accommodation as they could to the trappers who would sell fur to their hosts.

SEVERAL AIRPLANES were chartered to bring in new goods for trade and to rush sales of "extra" to outside markets. Hunters and traders claim that with the right breaks, thousands more pelts can be secured before the season ends.

Ice in the rich delta area is expected to break in about ten days and by then the hunt, in which the canoe, kicker or outboard motor with repeating 22 calibre rifles are the principal items of equipment, will be in full swing. Since the sun barely dips below the horizon at this time, continual daylight will keep the men on the go while their women skin the muskrats.

AVERAGE KILL per hunter each day is 40 muskrats. As the season draws to a close, the hunter can look with pleasure to the days when expensive schooners fill the waterfront and huskies and Indians, rich with their proceeds, spend the hours dancing, visiting the movies and just gathering to "fan the breeze."

Money means little here and it is common to see Eskimo children of four or five years clad in hand-fur parkies with a \$5-bill and an ice cream cone in each hand.

Court Kills Order Restraining WPTB

VANCOUVER, May 17.—(CP)—The Prices Board was given the go-ahead signal yesterday in its efforts to put Campbell Motors Ltd. out of the used-car business but the company is still fighting.

THAT WAS THE EFFECT of a decision handed down here Wednesday by Mr. Justice A. D. Macfarlane, of the British Columbia Supreme court.

He killed a temporary order issued two weeks ago by Mr. Justice J. M. Coady which kept the Prices Board from seizing the Vancouver firm's used cars and cancelling its licence to deal in them.

That injunction, requested by the RCMP and Prices Board officials, grabbed three cars found on the premises and announced that the firm's licence to buy and sell such cars was cancelled. The seizure

followed four convictions against the company for violations of Prices Board regulations, with fines totalling \$2,250.

C. L. McAlpine, representing the company, announced he will appeal Mr. Justice Macfarlane's decision.

MR. McALPINE ALSO said he is continuing with his client's action attacking the legality of the whole price-ceiling regulations. It was under those regulations that Campbell's cars were seized on the authority of an order signed by Donald Gordon, Prices Board chairman. "The firm is ready to fight the case all the way to the Privy Council," Mr. McAlpine said.

New Battleship Undergoing Tests
GLASGOW, May 17.—Reuters.—Britain's newest and largest battleship, the Vanguard, left the Clyde, where she was built, for Liverpool yesterday. En route she will carry out her official gun tests off the coast of Northern Ireland.

To Discuss Palestine Report

Arab Rulers to Meet With King of Egypt

Exclusive to The Edmonton Bulletin
CAIRO, May 17.—(BUP)—The special meeting of the Arab League scheduled for May 22 in Damascus was postponed indefinitely today to clear the way for a meeting of all Arab rulers summoned by King Farouk of Egypt.

Tory Nominated For Sask. Seat

CHAPLIN, Sask., May 17.—(CP)—Rupert B. Ramsay, 48-year-old leader of the Progressive Conservative Party in Saskatchewan, last night was nominated to contest the Moose constituency by-election, expected late in June. The by-election, made necessary by the resignation of S. M. Spidel, CCF member, is expected to be contested by both the CCF and the Liberal party.

CAPE TOWN.—(CP)—The South African Postmaster-General will issue a special postage stamp to commemorate the visit of the King and Queen. The Pretoria Philatelic Society has expressed the hope that South African artists will be given the opportunity of submitting designs.

THE ROYAL MEETING will be held in Egypt May 25-30 to discuss the Anglo-American report on Palestine and the great powers' intentions towards Tripolitania.

King Farouk's conference will be the first meeting ever held of all Arab rulers and chiefs of state, and will be considerably broader in scope than the planned session of the Arab League Council.

Originally the Arab League session was called for May 18 to organize protest action against admission of 100,000 Jews to Palestine. It was postponed until May 22 because Egyptian representatives were busy with Anglo-Egyptian treaty negotiations.

KING IBN SAUD of Saudi Arabia will miss the royal meeting because of illness. He will be represented by his son, Amir Faisal, who is the country's foreign minister.

Others attending the royal session will be Emir Abdullah of Trans-Jordan, Regent Prince Abdul Ilah of Iraq, President Shukry El Kuwaty of Syria, President Bishara El Khoury of Lebanon and Prince Seif Eddin of Yemen. No representative of Palestine will attend.

Says U.S. Does Most Ease Food Shortage

WASHINGTON, May 17.—(CP)—President Truman yesterday told his press conference that United States was doing more than any other country to cope with the world food shortage.

The President was replying to a questioner who asked what was being done in the face of a reported 40-per-cent failure of the United States to meet its many commitments to the world cereal pool.

APPARENTLY NETTLED by the suggestion that United States was falling down on its commitments, the President retorted that the United States agencies were working steadily on the problem and doing everything possible—more than any other country in the world.

The questioner quoted Fiorello H. La Guardia, director general of the United Nations Relief and Rehabilitation Administration, who told a press conference Wednesday of his apprehensions about the United States meeting its commitments.

The President did not go into the subject in detail but declared his belief that when the whole story is known it will be seen that the situation, from the point of view of the United States, is not so black as it has been painted.

having their service dead returned to the United States for final burial in national or private cemeteries, or of having them rest in American national cemeteries abroad where they fell.

Canadian policy, following the precedent of the First Great War, is that all Canadians who die on service abroad are buried in battlefield cemeteries. No exceptions are permitted.

To Return Bodies Of American Dead

WASHINGTON, May 17.—(AP)—The United States servicemen who can't be mustered out will start coming home from overseas this year to a final resting place in the U.S.

They are the dead—men and women whose names on casualty lists went toward paying the battle price of 328,000 lives which the Second Great War cost the United States.

They'll make their last voyage home in funeral fleets of white ships, marked from bow to stern with the purple band of mourning.

President Truman gave the official signal for the sombre movement when he signed legislation yesterday providing for the final burial of the country's war dead. It gives next-of-kin the choice of

Flying Wing in Public Test After Lengthy Tryout Here

Edmontonians were permitted a close-up view for the first time Thursday of a Buck Roger-like flying "bat" that may set the style in airplanes of tomorrow, when the national research council's experimental flying wing glider underwent demonstration tests at the Nampao airport.

CLIDER EXP.—Squad. Ldr. R. Kronfeld, A.F.C., expert on glider aircraft who is in charge of glider tests at North West Air Command, and who flew the machine in its public demonstration here on Thursday.

Treasury Units Said Successful

The future of Alberta treasury branches was assured, Flood Baker, M.L.A., Clover Bar, told an audience in the Social Credit hall on Jasper avenue Thursday night.

"THIS SECURITY is reflected in the growth of responsibilities being assumed by them; the confidence being placed in them by Alberta Industrial and business men and the ever-growing demand for an expansion of this type of government service."

The one criticism of the treasury branches has disappeared," Mr. Baker told his listeners. "It can no longer be charged that this service is a charge on the Alberta taxpayer since the credit branches are now paying their own way and evoked no criticism at the last session of the legislature."

MR. BAKER REVIEWED the history of the province's entry into the banking field, outlining the efforts of the Social Credit government to attain control of its own credit and of the legal battles involved when many measures labelled as Social Credit were disallowed by the courts or by the federal government.

Treasury branches were a part of the answer of the government and its supporters. They were designed to render the greatest possible assistance to Alberta's agriculture, business and industry, he said.

At the present time, Mr. Baker explained, the treasury branches not only perform all those functions of the treasury branches, but are of service to the province in many other ways as well.

AMONG THESE HE drew attention to the collection of taxes for municipal districts by treasury branches, or agents at points remote from the municipal office; the sale of auto and truck licenses and the sale of the provincial government's life, fire and hail insurance policies.

Managers of branches keep in touch with the regulations covering business, and it is hoped that as the war has now ended it may now be possible to answer requests formerly held up because of shortage of personnel.

It was once believed that rubies contained an internal fire which could bring water to a boil.

SUSIE Q. SMITH by Linda & Jerry Walter

There is great demand for more branches through the province, Mr. Baker said, and it is hoped that as the war has now ended it may now be possible to answer requests formerly held up because of shortage of personnel.

It was once believed that rubies contained an internal fire which could bring water to a boil.

It was once believed that rubies contained an internal fire which could bring water to a boil.

SUSIE Q. SMITH by Linda & Jerry Walter

ALTHOUGH the yellow-painted two-cockpit tailless ship has been glimpsed at the end of a long tony tow rope high above the city on several occasions recently, Thursday was the first time that RCAF officials permitted press, radio and members of the general public to give the motorless ship of the skies the once-over at close range.

The aircraft was for a long time a hush-hush creation of the national research experimental laboratory at Ottawa.

Now, following highly successful tests conducted by personnel attached to the joint RCAF-RAF winter experimental unit here, some of the "wraps" have been taken off.

After a crowd of curious civilians had examined the machine in the north hangar of Nampao field, a C-47 Dakota from Northwest Air Command hooked the bat on to the tow rope and both soared gracefully aloft in a spanking southeast wind of 25 miles an hour.

AT THE CONTROLS of the glider was Squadron Leader R. Kronfeld, A.F.C., 42-year-old expert on engineless ships of the air, who has flown more than 2,000 miles in gliders.

He was the first man to fly the English Channel both ways in a glider.

The Dakota tugged the wing aloft until an altitude of 6,000 feet was attained.

THEN THE TOW ROPE was released and the glider soared back and forth over the big field on its own for more than half an hour before coming in to a steep but perfect landing.

The wing was towed to position on the runway and back to the hangar after the flight by a special truck in charge of National Research Council personnel.

THE GLIDER has a wing span of 47 feet, is 18 feet long and flies at a weight of about 2,500 pounds. The speed on tow is about 120 miles an hour and the same speed can be maintained in free flight.

Fins and rudders are mounted on the wing tips which are sharply back-swept.

Controllers are used for the elevator and aileron functions and these are located in the same position on the wing as in conventional craft.

An outstanding feature is the use of rotatable wing tips to provide additional longitudinal control.

Plastic wood with a highly polished surface that has the feel of steel is used throughout the wing structure. The outer skin is of thick molded plywood.

NORMALLY a pilot and a scientific observer can be carried and there are dual controls in the cockpit.

The purpose of the National Research project is to investigate the characteristics of this type of aircraft and add to the growing body of information on tailless aircraft.

Further, as aircraft sizes increase it becomes possible to house all engines, passengers and cargo in the wing.

THE PROBLEM of adequate control and stability is acute and tests of the glider are designed to investigate this phase of tailless development.

The use of the glider simplifies construction and reduces maintenance costs that would be far heavier if a motor-driven craft were built for the experiments.

This flying wing is therefore a glider tunnel model without the tunnel.

Squad. Ldr. Kronfeld who was born in Vienna and is a naturalized British subject, has established 10 world records in glider towing.

HE WON THE £100 Daily Mail prize in 1931 as the first human to fly the English Channel both ways in a glider.

He has had 17 years of experience with aircraft of all types.

Lt. Stephen, Ottawa, is the National Research Council official supervising the test trials of the flying wing glider in Edmonton.

Jap Torturer Gets 15 Years in Jail

SINGAPORE, May 17.—(Reuters)—Lieut. Orimo Hiroshi has been sentenced to 15 years' imprisonment for brutalities which led to deaths of prisoners of war in Normanton Camp, Singapore, it was announced yesterday.

It was once believed that rubies contained an internal fire which could bring water to a boil.

SUSIE Q. SMITH by Linda & Jerry Walter

There is great demand for more branches through the province, Mr. Baker said, and it is hoped that as the war has now ended it may now be possible to answer requests formerly held up because of shortage of personnel.

It was once believed that rubies contained an internal fire which could bring water to a boil.

TEST FLYING WING HERE: Edmontonians were given an official peek at what may be the airplane of the future for the first time Thursday evening, when the experimental flying wing glider developed by the National Research Council of Canada, was tested at the Nampao airport. The above picture was taken by a RCAF North West Air Command photographer from a Harvard plane flying parallel to the glider towed by a RCAF Dakota. The photo gives a very clear idea of the shape of the strange tailless aircraft. Tests will be continued for some time.

Beer Room Hours Are Set at Meet

Beer drinkers in Alberta are going to have an additional four hours in which to quench their thirsts.

THE PROVINCIAL minister of trade and industry in the province, Hon. C. E. Gerhart, announced in Edmonton today that under the terms of a new labor-management agreement, beer parlors will remain open an additional four hours a day, except of course, Sundays.

Starting June first, the "pubs" will open at ten in the morning instead of the present one o'clock in the afternoon and will remain open until ten at night. In addition, it has been decided to eliminate

the present one hour closing for supper.

HOWEVER, THIS WON'T mean that waiters will have to work extra hours. In fact, they will work 44 hours a week instead of the present 48 with no reduction in take-home pay.

Also the Alberta government has lifted restrictions on the purchase of beer at government-controlled liquor stores.

The beer parlors are also to introduce a new type of beer glass and henceforth must provide a varied assortment of beer for their patrons to choose from.

Split shifts in the hotel business are to be eliminated. Mr. Gerhart said, and the Board of Industrial Relations is soon to issue an order to that effect. A saving clause will

concern the use of the split shift to provide for meal hours, though employers and employees may reach a mutual agreement extending the lunch hours to two hours.

THE BOARD is also to issue an order approving holidays with pay for hotel employees.

Arrangements were made for a joint submission by both employers and employees to the regional labor board for approval of an increase in pay for employees so that they will have the same take-home pay.

Holland Electors Ballotting Today

AMSTERDAM, May 17.—(AP)—Holland's electorate balloted to fill 100 seats in the lower house of parliament today.

Mayor, Aldermen To Attend Meetings

Mayor Harry Ainlay, and Aldermen J. M. Douglas and A. Bisset, K.C., will represent the city of Edmonton at the annual convention of American Mayors to be held at Portland, Ore., starting June 19.

The Edmonton civic party will leave Edmonton about June 18, and will motor through to Portland, Mayor Ainlay, who is an executive officer to the Canadian Federation of Mayors and Municipalities, has been invited to attend the meeting.

ALD. DOUGLAS and Bisset are delegates to the Canadian Federation of Mayors and Municipalities convention which is being held this year at Vancouver starting June 24.

They are travelling through with Mayor Ainlay, who is also attending this meeting.

Ald. James H. Ogilvie, also a delegate to the Vancouver conference, will travel by rail to the coast city if he finds it possible to make the journey. He was named a delegate to the conference by city council, and Ald. Bisset, as an alternate if Ald. Ogilvie was unable to attend.

Hammer Slayer Given 20 Years

NEW YORK, May 17.—(AP)—Walter H. Dahl, Jr., 39, yesterday was sentenced in general sessions to 10 to 20 years in prison for the hammer slaying of Solon Burt Harger, 39-year-old dancer, last Aug. 19. Dahl pleaded guilty to manslaughter. The dancer's dismembered body was thrown into the Hudson river and into the waters of Rockaway. Police quoted Dahl as admitting the slaying during an argument.

Parliament today in the country's first general elections since 1927. Prime Minister William Schermerhorn's Socialist Party of Labor was forecast as the probable winner of a plurality but not a majority of the seats.

Edmonton District Resident Is Sought

City police have received an urgent appeal for aid in locating Donald Sampson, formerly of Clyde, and believed to be residing in the Edmonton district. Mrs. S. H. Sampson has informed police that Donald's father is seriously ill at Clyde and he is wanted immediately.

Anyone having information concerning the whereabouts of Donald Sampson are asked to get in touch with Det. William MacDonald of the city force at once by phoning 2717.

Building Permits Increased by 10

Ten building permits totaling \$102,500 were issued Wednesday by the city architect's office, eight of them for dwellings. The value of the home building permits was \$55,500.

G. WOODWARD LTD., took out a permit for \$40,000 for an additional store to the company's 101 street store.

Standard Electric and Auto Parts Ltd., took out a permit for \$28,000 for a brick and concrete warehouse at 10160 106 street.

HOME BUILDING permits were

(Issued to: D. Titus, 9731 85 avenue, \$5,000; F. Romanuk, 10718 124 street, \$4,000; S. R. and M. Harris, 10002 69 avenue, \$2,500; A. Yaremich, 10017 84 avenue, \$6,000; F. Rialer, 9720 89 avenue, \$5,000; W. O. Pozar, 11345 162 street, \$4,000; D. C. Simonson, 8504 95 avenue, \$4,500, and R. Eggeert, 9731 86 avenue, \$4,500.

TO THOSE WHO SUFFER WITH PILES

If you suffer agonizing torture from piles, there is a chance to find a simple, effective treatment with the use of a reliable firm to refund the cost of the first package if you are not satisfied with the results.

Simply get a bottle of Hem-Roid from any drug store and use as directed. Hem-Roid is an internal treatment whose specific action is directed to the removal of the cause of your piles. May Have to Ration Bread

Great Britain Stands Ready Aid Germany in Food Crisis

By JAMES MCCOOK

LONDON, May 17.—(CP)—For Germany's sake, the ordinary man in Britain is prepared to give up a night at the pub—although wartime bombs couldn't make him do it.

FOOD MINISTER Sir Ben Smith announced Thursday that 70,000 tons of barley and 80,000 tons of potatoes from British stocks would go to Germany in the British occupation zone where 3,000,000 persons are on the verge of starvation.

The barley shipment was made possible by a cut in barley for beer and the 70,000-ton figure represents the allocation of a 15-per-cent cut from now to Sept. 30. Public house owners said today that reduced beer supplies probably will make it impossible for them to continue their usual hours and the best solution probably would be to close one night a week.

Shipping weak, wartime beer, Londoners said the suggested closing would be easier to accept if there was plenty of food on their tables at home. They said their diet had become increasingly drab since the end of the war and that they enjoyed a glass of beer more.

Anyway, they said, the public house is not just a place to drink but is "grand" for meeting neighbors and forgetting troubles in talking. They will miss that one night, they said.

LONDON NEWSPAPERS yesterday

day headlined dispatches from Washington on Herbert Morrison's appeal to the United States to help with food and in parliament, in clubs, over garden fences in the suburbs and even in the pubs, Londoners' views appeared to agree with those of Arthur Greenwood, Lord privy seal, who said in an address to the Canadian Chamber of Commerce in Great Britain that no advanced nation could live with a clear conscience if there was hunger in the world.

It is understood rationing experts are preparing machinery for rationing bread but that this restriction would be imposed only as a last resort.

BRIEF MALAYAN RIVER

BANGKOK, Malaya.—(CP)—Across a 200-yard, fast-flowing river at Surat Thani, sappers have built a pontoon ferry that carries railway locomotives and rolling stock from one bank to the other, and thus re-establishes a direct rail communication between Bangkok and Singapore for the first time since the original steel bridge was toppled by RAF bombs.

SHOW TWIN SONS AIR FORCE WAY—These 19-year-old twins, Richard and Harry Paddle, of Duncan, B.C., get the lowdown on how to make a bed according to regulations from their father on their recent enlistment in the peacetime RCAF. He should know. He served in two world wars—as a medical orderly in World War I and a hospital assistant with the RCAF in the recent war. The boys were logging on Vancouver Island when they decided to chuck their \$8 a day job for "A Career with a Pension in a trade with a future" with the permanent air force. The beds in the permanent force, of course, won't be the double-decker bunk shown here. Twins each will have their own.

Worried Over Jail Option

Connie Bennett Fined 50 Dollars For Speeding Through Slow Zone

LOS ANGELES, May 17.—(AP)—Connie Bennett made a personal appearance yesterday, registering shocked horror, then relief, in the approved manner. Or maybe she wasn't acting.

The scene was municipal court, where the blonde Connie, her shapely, nylon-clad knees trembling, stood before Judge H. Leonard Kaufman.

"FIFTY DOLLARS or five days," announced His Honor. "Oh, my," gasped the actress. "Am I going to jail?"

"No, no," soothed her lawyer, Harvey Silbert. "Not if you've got 50 bucks. He said OK five days."

"Oh! I thought he said 'five days,'" she sighed.

She pleaded guilty to travelling 50 miles an hour in a 25-mile zone.

Living Costs

(Continued from Page 1)

is no rationing there, even of butter, jam, meats or honey. There has been, and still is, some rationing of hard liquor, but no more than in Ontario, for instance, where decent citizens are herded like sheep in a pen. A few days ago, 600 cases of Jamaica rum, a shipment of 17½ tons by weight, was landed by air and the general dispenser is wondering how to get rid of it. He should quit worrying. It won't be long.

AND, WOULD YOU believe it, regular lady customers of Hudson's Bay Co. were recently given rights for one pair of nylons apiece at 32.25 per. Needless to say, the rights were exercised—to a lady. As to meals, the price of those regularly prepared—more than the visiting tenderfoot can get away with—is held to \$1, that if one takes three meals a day, he will be well-fed for \$3 which certainly is not extravagant, considering everything. Of course, if he wants fancy dishes, such as fresh eggs, which must be delivered by air at 35c a pound, his bill will be higher. The dollar price for regular meals was adopted in deference to the suggestion of the Wartime Prices and Trade Board and the Mounted Police watch things in their close but kindly way and have so far had no trouble.

COMPARISON OF PRICES in Edmonton and Yellowknife will be of interest to those fearless couples contemplating setting up house-keeping in their own cookeries in tents or other habitations. Roast beef sells at 33 cents a pound in Edmonton, 48 cents in Yellowknife. Other random prices, with Edmonton figure first and Yellowknife second, are as follows: Eggs, fresh by express, 35c to 47c—\$1.20 per dozen. If brought in by water, 65c per dozen; by tractor, 85c per dozen, at Yellowknife. Bread, 9c—25c a loaf; butter, 42c—55c; syrup, 2½ lb. tin, 23c—37c; corn, per tin, 15c—25c; peaches, 20c—30c; pears, 20c—28c per tin apiece; 25c—48c chips, 24c—35c; bran flakes, 14c—35c; corn flakes, 10½—35c; salt (quite scarce in camp just now, as shipment from McMurray was sidetracked while the precious air shipment of rum was given right-of-way), 9c—20c for 2½ lb. package; canned peas, 15c—22c; carrots, 14½—20c; potatoes, varying prices in Edmonton, \$7.10 for 100 lbs., or 8c per pound in small lots at Yellowknife; cheese, spread easy, 18c—40c; bacon, ham, hard, all of which comes in by water, sell at prices not far above those of Edmonton; coffee, up to 40c—50c.

FRESH VEGETABLES and fruit come high, since they must be delivered by air express at 55c per pound. Oranges, 10c to 15c apiece by air; 75c a dozen by water and \$1 by tractor; bananas, 15c a pound in Edmonton, \$2.20 a dozen at Yellowknife; tomatoes, 25c—60c per pound; celery, 15c—40c per pound; lettuce, 18c—45c per pound. Believe it or not, there's a laundry at Yellowknife, with partial price list as follows: Woolen shirt, 50c; white shirt, 35c; sheet, 25c; pillow slip, 20c; nightgown, 40c; tablecloth, 30c. No limit on rentals, if you can find anything to rent; one shack, reached by 20 steps, high up on the rock, brings \$100 a month as an office and it is only 18 by 10 feet, with some fur-

Saskatchewan. It is understood that Mr. Patterson will seek re-election as party leader at the convention.

Vancouver Man Claims:

Anglo-U. S. Friction Is Bar to Fortune

VANCOUVER, May 17.—(CP)—Ernest W. James of Vancouver, former resident of Japan, said in an interview here yesterday that the "friction between the U.S. and the British in the far east" is preventing him from establishing his ownership of property in Japan which he values at \$5,000,000.

"IN THREE YEARS I paid a million yen in taxes," Mr. James said. "The equivalent of \$300,000. I bought Shioya mountain outside Kobe, built 65 beautiful homes made a new community called Jamestown. The whole property was worth \$2,500,000 gold dollars, must be worth twice that now."

"I'm told I have to file a claim to get it back. How am I going to do that? There are no title deeds in Japan—you have to register your property with the local registrar, which is just as good, but only if you can ever get back to him. And that you can't do."

"I went to Shanghai recently to try to get a permit to go to Japan. The U. S. consul-general okayed my application but after a seven-week delay MacArthur's agent in Tokyo refused me permission to Tokyo. I came back to Canada and had an application with Washington—I got a letter from MacArthur signed by his aide saying civilians are not allowed to Japan. Nobody can tell me when they will be."

"THE JAPS STRIPPED me when I left just before the war, took away documents, photographs, everything. I left a complete list of claims with the British embassy in Tokyo but what good is that now? I suggest that if MacArthur is going to issue directives to have

property returned in Japan he should let the people who own it return to identify it. It would only take a week or 10 days—they could be taken over by plane."

Mr. James added: "In my opinion the real trouble is the feud between the U.S. and the British in Far East. British subjects are being treated deplorably. I have complained to British officials, but they say it would not be polite to say anything while waiting for this loan."

MR. JAMES was the senior partner of A. Cameron & Co., agents in Japan for Canadian lead, zinc, copper, paper and pulp. He got his wife and twin 20-year-old daughters out of Japan a year before war broke out and left himself just before Pearl Harbor. His warehouses in Kobe were reduced to rubble by U.S. bombing, but James' home is intact and reported to be in use by U.S. Navy personnel, he said.

Three-Year Sentence

CALGARY, May 17.—(CP)—William Peter Graff, 20, no fixed address, was sentenced to three years in Prince Albert penitentiary when he pleaded guilty in district court Thursday before Judge L. H. Stock to retaining on Feb. 14 four \$100 Dominion of Canada bonds stolen from J. Dyer, Saskatoon.

The Bulletin's SPORTS SHOW by Hal Dean

SPORTS EDITOR

GINO VALENTI, centre fielder for the U.S. Army Yanks here for the last three seasons, is back in Edmonton and will resume patrol duties in Renfrew Park over garden this time for one of the three clubs in the senior baseball circuit.

And Jack McCulloch, Winnipeg outfielder, arrived yesterday from Quebec, where he had been stationed with the RCAF. Valentini was out for practice Thursday, and McCulloch will be on the job today.

In addition to being a ball player, McCulloch has quite a reputation as a track man. He is reputed to be fast, not only in the outfield, but also on the paths.

KEN SAMIS, veteran catcher and coach of the Arrows last season, will handle the Cardinals until the arrival of Johnny Galvin in June, arrangement to that effect having been made with Ken on Thursday night.

Daily practices will continue until Wednesday when Eskimos, managed by Bruce Curry, will play the season against Ralph Morgan's Cubs. Several more players from the west coast are expected to report in the meantime.

PHIL HORN'S junior baseball circuit plays off the lid for the season at Clarke's Stadium tonight with Arrows, last year's champions, and the runner-up Canadians the contending teams. EAC, South Side, Maple Leaf and CN Cardinals are the other members of the six club loop.

Joe Shandro will start Mike O'Neill with Colin Kilburn as receiver, while Val Berg will send out Tommy McGregor-Bill Gadaby battery for Canadians.

Arrows will have seven of their 15 team available, while Canadians also have most of last year's

Legion Clubs Clash

City Senior Soccer Loop

Scheduled to Open May 25

Three Games Open

Fastball League

The Canadian National Recreation Association Fastball League opened its 1946 season last night with three games played at Clarke's Stadium.

Canadian National Telegraphs No. 2 team downed NAR Office 15-4, Canadian Express No. 1 scored an 18-3 victory over Canadian Express No. 2 and the South Side Car Shops handed Canadian Telegraphs No. 1 a 14-1 defeat.

The recently re-organized loop is comprised of 10 teams and will play a tripleheader at Clarke's Stadium every Monday and Thursday nights.

Other teams who are in the league are Calder Shops, Car Shops, Calder Stores and NAR Yards. They will be playing next Monday night.

Batteries: CN No. 2—Peacock and Muir; NAR Offices—Whitland and Macdonald.

CN Express No. 1—Jackovich and Anderson; CN Express No. 2—Latta and Desjardins.

CN South Shops—Bercha and Whelpley; CN Telegraphs No. 1—Garnett and Wilson.

Purpur Sold

ST. LOUIS, May 17.—(AP)—Clifford Purpur, 29, veteran right wing for St. Louis Flyers of the American Hockey League, has been sold to St. Paul of the United States League. It was announced Thursday.

Aces Come From Behind To Beat USAAF in First Start

Stu Cowan Wins Own Senior Fastball Tilt.

Hits Triple For RCAF 7-5 Triumph

Stu Cowan capped a stand-out display of hurling by hitting a three bagger in the eighth inning of a City Senior Men's Fastball League game between the USAAF Clippers and the RCAF Aces at Kingsway Thursday evening to win his own game and give the Aces a 7-5 victory.

Of the 34 American batters that faced him, Cowan fanned 10 and held the others to five hits.

Coming into the eighth on the short end of a 5-4 count short-fielder Lewis belted a fly to Clippers' right fielder Walt Dober for the Aces' first out. Shortstop Piro drew a walk, then centre fielder Sloan went double to right. Cowan then belted a long low triple into centre field that drove in Parr and Sloan to put the Aces out in front 5-4.

ED SCHMIDT started the scoring in the second inning when he hit a triple and made home on a passed ball to give the Clippers a 1-0 lead.

Vern Thomas, Walt Dober, Bill Wood and Dick Ellis lifted the lead to 5-1 in the third, scoring on errors by Carroll and Dyck.

ACES PICKED UP three runs in the fifth, when Kenzie later had the Regina Capitals in the re-organized Western Canada League.

The opening fixture of the four-team circuit will see the two Canadian Legion eleventh, north side and south side, in action. Opening ceremonies will take place at 6:30 o'clock when Mayor Harry Ainlay will start the league off by kicking the first ball. The Canadian Legion band, under the direction of A. T. Newlove will be in attendance.

The schedule, not yet completed, will call for two games a week, on Tuesday and Saturday evenings at Clarke's Stadium.

Should the proposed Vancouver North Shore-Winnipeg series become a fact, it would be the local association will be made to arrange a game here with a local all-star club around June 10.

PRESIDENT OF the league is Tom Green, well known local sports official. Secretary-treasurer is John Fawcett while George Wilce is assistant secretary and other council members are Earl Samis, Alvin Orchin and John McQueen. W. McLean is vice-president.

It is anticipated to have each of the teams play three times during the regular schedule. Entries for the Vets March trophy competition, a separate event, must be received by the secretary not later than opening day.

A junior association has been formed under the chairmanship of Earl Samis and is expected to get rolling soon.

Ducks Decreasing

OTTAWA, May 17.—(CP)—North America's duck population is decreasing and the bag limit for ducks probably will be lowered next fall, a mines and resources department source disclosed Thursday night.

CAHA Committee Meets NHL June 18

PORT ARTHUR, May 17.—(CP)—

The Canadian Amateur Hockey Association will seek a new agreement with the National Hockey League governing players who turn professional when its representatives meet the inter-relationships committee of the NHL in New York, June 18.

Past President Frank Sargent said here last night the CAHA negotiating committee has been instructed to secure a larger lump sum payment or preferably a stated amount for each player.

The NHL has offered to pay a flat \$20,000 a year for all players under CAHA jurisdiction who turn professional.

There were several other minor clauses in the professionals' offer which did not meet with CAHA approval, said Mr. Sargent.

"We are on record as not favoring the professional's request that our clubs refrain from contacting or negotiating with players at their training camps."

Mr. Sargent said the CAHA committee has every reason to believe that a satisfactory agreement will be reached at the New York meeting.

"We have had nothing but the (richest) relations with the professionals during the past years,"

San Diego Padres Purchase Bread

MONTREAL, May 17.—(CP)—Stan Beward, Montreal Royals' Canadian-born shortstop who has been the subject of a sharp controversy during the last 10 days, has been sold to the San Diego Padres of the Pacific Coast League, Mel Jones, general manager of the Padres, announced last night.

The patent for barbed wire used as fencing was granted in America in 1874.

Beaten by Two Points

Loyal Edmonton Marksmen Just Miss Sherwood Trophy

Compiling a total of 1469 points, the rifle team of 2nd Battalion, Loyal Edmonton Regiment, barely missed winning the Sherwood trophy, finishing just two points behind the 40th Battery RCA, of Ontario.

This competition, open to military units across Canada, was sponsored by the Dominion of Canada Rifle Association and was shot during January, February and March, at a quarter-inch bull's eye at 25 yards being used.

SIX HUNDRED TEAMS entered the event, and the Loyal Edmontonians placed second, after leading for February, being second in January and March.

The Edmonton team scored 490,

In New York Court

Mexican League Charges

Contracts "Monopolistic"

By GAYLE TALBOT

NEW YORK, May 17.—(AP)—The Mexican League fired back at organized baseball with both barrels Thursday, charging in the New York supreme court that United States player contracts were "monopolistic, unreasonable, illegal and against public policy," and that players who signed them were held "in peonage for life."

The charge was levelled by Jerome Hess, counsel for Jorge Pasquel and the Mexican League, in opposing an action by New York Yankees permanently to restrain the Latin League and its agents from trying to induce Yankee players to quit the Yankees and perform south of the border.

IN A SOMETIMES heated exchange between counsel, Hess sought a separate bid of whether baseball contracts were monopolistic, while Mark T. Hughes, representing the Yankees, was equally insistent that Justice Julian Miller should grant the requested injunction against the Mexican Leagues irrespective of monopoly angle.

In the end Justice Miller reserved decision on both motions, but strongly indicated he thought the whole thing should be fought out in one trial, the earlier the better. The Yankees said they would be ready after May 27, when the team returns from its present road trip. Hess said that would suit his clients fine.

AT ONE POINT, when Hess declared that baseball contracts were so one-sided they could not be enforced by a court of equity, Justice Miller interrupted to ask some what incongruous "Do you really claim that these are illegal contracts?"

Hess assured him that he did, and read a decision of the New York supreme court in 1914, in a case involving Hal Chase, Yankee first baseman, where it said it would not enforce a "monopolistic contract."

HUGHES, YANKEE counsel, pointed out repeatedly that no Yankee players were complaining about the "reserve" clause in their contracts, which the Mexican leaguers said made them "peons" for life, completely at the whim of their owners.

In a reserved decision on the Yankee suit and the Mexicans' cross motion, Justice Miller postponed until May 24 a similar suit for an injunction brought by New York Giants.

Justice Miller suggested to the Yankees that they drop their suit as it related to Rud Rennie, sports writer for the New York Herald Tribune, whom they had named as an agent of the Mexican League. Rennie, through counsel, denied that he had dropped their suit as it related to Rud Rennie, sports writer for the New York Herald Tribune, whom they had named as an agent of the Mexican League.

Then a blood test had to be taken. Reporters and photographers assigned to cover the wedding joined in the pleas of Cooper and Miss Smallwood for an immediate test be made. It was.

The wedding took place about an hour later.

Junior Soccer Practice Sunday

A soccer practice, for all boys between the ages of 15-18 who wish to join a junior team, will be held at the South Side Athletic Park on Sunday, May 19 at 11 o'clock. Coaches will be in attendance.

The ROAD AHEAD

By HARPER PROWSE, M.L.A.

I SUPPOSE that somebody at Ottawa knows what it is all about, but they aren't telling anybody—and nobody seems sure who has the secret. But the department of labor is slowly moving in on the department of veterans' affairs. What the final result will be is still a deep dark secret—perhaps nobody knows. Whether it will be for the best in the long run is also obscure at the moment. But this much is clear—right off the bat the department of labor, through its national employment services offices isn't as broad minded as the department of veterans' affairs.

IT PROBABLY wouldn't be correct to say there has been friction between the two departments. But it has been clear for a long time that overlapping of their functions didn't promote efficiency, and there were times when officials weren't just exactly sure where one was supposed to leave off and the other begin.

For example, the department of veterans' affairs was responsible for interviewing veterans and

SECOND SECTION EDMONTON, ALBERTA—FRIDAY, MAY 17, 1946 PAGE THIRTEEN

B.C. Police Officer Sees Officials Here

Inspector Gordon Duncan, veteran member of the B.C. Provincial Police, was in Edmonton Thursday en route to Pouce Couc, B.C., from Vancouver. While in the city he conferred with RCMP and city police officials.

HE MADE A BRIEF appearance in court Thursday afternoon where he testified during the preliminary hearing or six charges of false pretences against William G. McEllan, who is accused of having fraudulently obtained more than \$1,200. The case against McEllan was not concluded Thursday.

Inspector Duncan is in charge of policing all the area of B.C. lying east of the Canadian Rockies. He has been with the provincial force for more than 20 years.

Two Minor Fires Quickly Put Out

Equipment from Fire Halls 1 and 2 rolled to two alarms Thursday afternoon and Friday morning with damage in both cases being very slight.

THE FIRST BLAZE broke out at the rear of the offices occupied by the CCF party on the second floor of the Commercial Printers building, 10010 102 street, about 4:50 p.m. Thursday. The alarm was turned in by Miss Isabel McMillan and two hand pumps quickly brought the flames under control.

The second alarm was turned in at 2:55 a.m. Friday when a short circuit in an electric floor plug caused the insulation on the wires to burn off. No water was used.

Plan Conferences On Harvest Work

Conferences with officials of the department of agriculture on the recently announced policy of permitting threshing machines to cross the Canadian-American border are to be held on Friday and Saturday this week by Donald Peet, the official from Fargo, N.D., who is allocating the machines which plan to cross the border to assist in the American harvest. According to the recent announcement by the government Canadian threshing outfits will be allowed to enter the United States to assist in harvesting operations there. Mr. Peet has been appointed by his government to direct Canadian machines to the areas most needed.

Attempted Theft Charge Is Laid

Kenneth Weaver of Edmonton was arrested by city police about 12:25 a.m. Friday and charged with attempted theft after he was found near cars on the Royal George hotel parking lot with articles belonging to a car owned by J. H. Schneider. I of the hotel lying on the ground near him. He was apprehended by Det. H. Nelson and Constable D. Ellis.

Delay Start of Building Program For Strathcona Baptist Church

Delay of the start of a new building program for the Strathcona Baptist Church was a decision arrived at when members of the congregation met at the church Wednesday evening. The church is planning a new building and the members decided to wait until the summer of 1947 to start the program.

Your Baby And Mine

By MYRTLE MEYER ELDRED

EVERYONE who reads this column knows that I frown on spanking as a means of forcing the child to be good. It is similar to a natural medicine, while it works it is just coincidence, while it doesn't it may lead to chronic or fatal consequences. The chance is too great to take.

MRS. L. A. L. expresses the more popular viewpoint, "I follow your column regularly," she writes, "and I notice quite a few letters from readers concerning discipline. You column mentioned a father who spanked his eight-month-old baby and I heartily endorse your criticism of this father."

"However, in all the letters where parents confess spanking you take a stand against it. I must be a member of the old school. I believe a good spanking, if deserved, does more good than harm."

When my son was ten-years-old his whole behavior changed. He became antagonistic. He refused to behave and started to sulk. I requested, "Our home life was one continuous row. I tried everything to change his attitude. I took him to a doctor several times. The doctor assured me he was healthy. The continual conflict affected me. I could not carry on my normal household tasks."

DESPITE THE modern ideas on spanking, I am sure a poll taken among your readers would show a surprising number of fathers leaving their buttocks bare for a strapping if behavior warrants. If more parents admitted spanking I am sure the juvenile problem would not be as acute today.

THEN YOU REALLY don't believe what you said. That a spanking is a punishment is a fact. The number of teenagers are sent to jail for their own punishment would be absurd, as in truth it is. Spankings have never worked any more as countless parents can testify. This is the sort of blanket remedy which prevented you from investigating just the physical but the mental and emotional condition of a boy whose behavior had changed so drastically. You did not say just implied that his behavior was better after the spanking. How could it be, if the cause of his conduct were unaltered?

More tomorrow.

Our leader, Mr. 75, an "obedience test" punishment, can be had by sending a stamped, self-addressed envelope with this request to Myrtle Meyer Eldred in care of this newspaper.

DOROTHY DIX SAYS—

Obligation and Duty No Basis for Marriage

It Is Folly for People to Marry From a Sense of Duty.

Since There Is No Happiness in a Marriage Without Love

Many times in this column I have urged men and women to turn back from the very steps of the altar if they realized that they no longer loved those to whom they were betrothed, and were being driven into marriage only by a sense of duty and obligation.

I am repeating that warning here with all the earnestness I can possibly put into it, because my mail is flooded with heartbroken and bewildered letters from returning servicemen who are facing that question and dreading it more than they ever did death on the battlefield.

Those letters from G.I. Jones tell the sad, pathetic story over and over again. Joe was just a kid when he went into the Army. He

knew nothing of life, or women, or any real feeling, but he and Sally had played together since they were mud pie days and gone to school together, and in the parlance of their age she was "his girl."

When he started for the army, homesick and wanting somebody to cling to, he got engaged to her and promised to marry her when he came back.

AND NOW that he has returned, Sally is demanding that he make good on his promise and marry her at once, and Joe would rather be shot at sunrise than do it. For he is no longer the boy who was engaged to her. He has had the experiences of a lifetime crushed into a few years. He has outgrown his youthful fancy for Sally as completely as he has his taste for alleyway suckers. And he has found a girl who stands in his way to the girl he really needs in a wife.

There are tens of it and of those poor Joe's torn between his conscience and their hearts, feeling that they have to make good on their promise, but that it will ruin their lives if they do. And with their common sense dissolving in a girl's tears.

If any good came out of Joe's sacrificing himself by marrying Sally after he was tired of her, there might be some faint justice for his doing so, but there is no justice in his sacrifice. He doesn't secure Sally's happiness. He wishes on her a life of bitter frustration and jealousy. And for there is no woman so unhappy as the one who knows that she is practically forced to marry her husband and that in his secret soul he hates her for it.

SO URGE JOE not to let his sympathy, nor his fear of what people will say force him to marry a girl whom he doesn't love and does not desire. He will hurt her heart. For marriage is a rocky road to travel even with a congenial companion, and it is a hell on earth if you have to walk it with one who has made the marriage band clank at every step.

There is no happiness in marriage without love, and without husbands and wives just being each other's tastes. And that is what makes it a crime as well as a folly for people to marry from a sense of duty, or because they can't bear to hurt the feelings of dear ones. Breaking an engagement is the noblest and the kindest thing that anyone can do when the reason for it has ceased to exist.

And this goes for women as well as men.

Elizabeth Woodward Says . . .

YOU'RE COMPETING WITH HER GIRL FRIEND

You sure go for Sally . . . but you can't go her. Vera. Oh, Vera's all right in her place . . . but she's got it in you. Every time you see her, you go to the movies it seems it's a night she promised Vera she'd go with her. Every time you drop in at Sally's school, there's Vera. And you're Gosh, it's gotten so you can't even see Sally alone.

There are two reasons why Sally's usually surrounded. One may be that she really is a bit afraid of you. She's shy of going out with you alone . . . maybe she's not quite sure she likes you the way you like her. So she has Vera around for sure.

East would hold the four spades. Therefore at trick four Levenston would have to lead the king of spades. He led a low spade and West played low. He made the trick. So he was one card short from winning.

He was able to take three tricks and lose only one. It is true, "he king of spades play here" is a bit of a trick, but he might easily have found himself in trouble if he had trumped the queen.

By JOSEPHINE LOWMAN—

Why Grow Old?

It's plainly seen that Andrea King and Martha Vickers, above, have no problem about making friends. That's Don McGuire, who's so interested in their chat. But one of Josephine Lowman's readers wants to make friends as easily and gets advice on the subject.

"I SIMPLY DO NOT know how to make friends. I long for them and try to make myself agreeable, but I do not have many friends, nor am I popular. How can I overcome this?"

A. Perhaps you are trying too hard, and are being too self-conscious. Try to be pleasant, friendly, and be natural. Remember the little things, young people like to do, and small thoughtfulness with which you can treat others. This does not necessarily mean money spent, but just thought. Also learn to do well the things young people like to do, such as sports and dancing.

"I AM A BIG, husky girl of 24 but I have such a terrible voice. My friends tell me that I sound like a screech owl, and hurt me to such an extent that I make life miserable for me. Please tell me what to do at once."

A. Your friends are tactless, to say the least.

Delegates Submit Proposals

Tourist Meet Studies Plans To Better Alta. Attractions

Speakers representing various branches of the tourist trade outlined programs and submitted ideas from their organizations and concerns at Thursday afternoon's session of the tourist conference which is being conducted in the Memorial Hall for three days concluding Saturday.

UPRIGHT MISS.—Taking a stand for good carriage in screen starlet Janis Carter, recently elected "Miss Posture of 1946" in eighth annual National Posture Week.

Road Ahead

(Continued from Page 13)

counselling them as to what line of work or business endeavor they were best suited for. Then it was up to national employment service to help them find that kind of a job. To do this national employment service set up an armed forces registration unit. At the end of February this year the payment of the out-of-work benefits was turned over to the NES to be administered through the machinery set up to make payments under the Unemployment Insurance Act. Authority for the payments had to come from DVA, but payments were made by NES. It seemed like a good idea—because NES had the man's record, knew whether employment was available.

BUT THERE WERE differences of opinion between the two departments over the interpretation of the phrase "available for employment." For example, take the case of one veteran who was planning to open a butcher shop. He had secured a shop, license, quotas—but he lacked a refrigerator. He couldn't do business until he could get one.

DVA was of the opinion that he should be paid "out-of-work" benefits until such time as he was able to open his shop. NES said no. As he wasn't registered with them as seeking employment he was not "available for employment." They suggested he should receive "benefits-while-awaiting returns." Which amounted to the same thing, but he was paid from different offices.

ALSO THE VETERAN is entitled to "awaiting-returns" for a maximum of 12 months. If he got out-of-work benefits, under these special circumstances they would not be charged against his entitlement for "awaiting-returns" which would start when he began to do business. It made a nice technical basis for a long argument.

Now NES is moving into the "training-on-the-job" picture. What has always been arranged by department of labor officials they have up to the present been working in close co-operation with, and almost under direction of DVA. For example DVA sponsored the public campaign this spring to popularize "training-on-the-job" with employers. Now NES has had orders from Ottawa to take this over too. At the moment they are completing the job of taking over all records of placements of "training-

W. R. "WOP" MAY of CPA described attractions in the north country and stated that along the Alaska highway were the greatest hunting grounds in the world. He recommended that air strips be built at Banff and Jasper so that tourists could visit there with their own private planes.

S. A. McDonald told of experiences of the airways in flying tourists to the north country and stated that so far this has proved to be too expensive. He said however, that his company is making arrangements for schedule flights to the north country with an eye to cheaper rates.

D'Arcy McLeod of TCA claimed that a person can travel to any place on the North American continent within 24 hours, which makes it possible for anyone to spend their vacation enjoying themselves instead of traveling. He also advocated that attendants should be available at the air strips suggested by Mr. May in order that visitors could get their planes serviced in the same manner as a motorist at a service station.

R. Bruce Brehm, CNR official, said that the CNR is spending about \$200,000 this year in advertising and publicity for tourists. This sum is divided between ads in newspapers, magazines, window displays, posters and photographs.

W. H. MORGAN, of Greyhound Bus Lines, claimed that Alberta's big need to handle tourists is accommodation. "Good roads and advertising might bring them here, but then where would they stay," he asked. He advocated a strong winter program so as to have a continual tourist season.

R. A. Godson, of the AMA stressed need for better roads in the province and recommended that the government be impressed with the urgent need for improved highways.

E. T. Love, chairman of the Jasper Park development committee, outlined work that has been done by his group. He also urged that a resolution be brought forward asking that work to be done on parks be put on file with other projects to be undertaken when unemployment strikes. He pointed out need for the improvements.

Tom Shandro of CICA asked that a resolution be brought in during the conference to the effect that a central co-ordinating committee be formed to deal with the tourist trade.

MacDonald Millard of the Calgary board of trade urged that more attractions along main highways be installed. He expressed his dislike for the term tourists, explaining that "visitors" sounded much better.

DISCUSSIONS on the numerous phases of the tourist industry were held by delegates, of whom there were about 50.

The meeting was adjourned until Friday morning. Acting chairman of the session was Dan E. C. Campbell, in charge of tourist publicity for the provincial government.

on-the-job" applicants, and prospective openings.

THEORETICALLY this isn't such a bad idea. It is centralizing employment efforts under NES—where it properly belongs. It also permits NES to co-ordinate the operations of the employment service, the Unemployment Insurance Act, and "the payment of out-of-work" benefits. But there close both departments believe it indicates a reversal of government policy in the treatment of veterans.

NES, dealing with the entire broad picture of employment abides strictly by regulations and official interpretation of them. DVA, acting under instructions, has been "leaning over backwards" to see that veterans were given everything that there was any possible justification for giving them.

NES is NOT as generous. For one thing—it isn't staffed exclusively with veterans—as the DVA is. The next step hasn't been indicated yet—but it seems safe to assume that the government isn't as interested in "keeping the vets quiet" as they were last winter.

Bank Clearings

Bank clearings through the Edmonton Clearing House for the week ended May 16 amounted to \$11,686,097.98 as against \$7,342,237.03 for the corresponding week of last year.
